Avexa Limited is a Melbourne-based biotechnology company with a focus on research and development of drugs for the treatment of infectious diseases, in particular diseases which have a significant unmet medical need. Avexa has dedicated resources and funding for key projects including antiviral drugs for HIV and an antibiotic alternative for antibiotic-resistant bacterial infections. The Company's lead program is apricitabine (ATC) which has recently successfully completed the 21 day dosing of its Phase IIb trial. The Company continues to progress ATC towards Phase III trials.
